

Privacy Policy

Introduction

Daily Zap ("us" or "we") is an iPhone app that puts a fun new spin on keeping in touch with old friends and colleagues. In order to provide the best experience possible, Daily Zap collects anonymous event-triggered data to help us learn about how to improve our user's experience. This document details the extent to which data is collected by the Daily Zap and website.

Collection of Information

Daily Zap collects event-driven benchmarks, including but not limited to when users complete the onboarding screens, send messages/call a contact ("Zap") and when a user modifies their notification settings. This is help us better understand the value Daily Zap is providing our users.

Information we DO NOT collect

Daily Zap does not collect the personal information of any user. We do not have our own private database, and only track usage statistics with the open-source tool [Flurry](#). Since the app's core-functionality operates only locally on a user's device, we do not log, view or save any information from the user's private contact list.

Security

We work hard to make sure Daily Zap provides a private, bug-free and secure experience. However, please remember that no application is 100% secure and reliable, and we cannot guarantee its absolute security.

Changes to this Privacy Policy

We may update our Privacy Policy from time to time. Thus, we advise you to review this page periodically for any changes. We will notify you of any changes by posting the new Privacy Policy on this page. These changes are effective immediately, after they are posted on this page.

Contact Us

If you have any questions or suggestions about our Privacy Policy, do not hesitate to contact us at support (at) dailyzap.app.
